

Notice of Public Review Period for Proposed Amendment 3 to TRANSPORTATION 2035

Notice is hereby given that the public comment period has begun for a proposed amendment to TRANSPORTATION 2035, the Lake~Sumter Metropolitan Planning Organization's (MPO) adopted long range transportation plan. The plan must be amended to reflect new funding received from the Florida Department of Transportation (FDOT) to widen I-75 from the Hernando County Line to SR 91/Florida's Turnpike and also to maintain consistency with state planning documents.

The MPO invites you to read and submit comments on this proposed amendment that will update TRANSPORTATION 2035's Cost Feasible list of projects to include widening I-75 from the Hernando County Line to SR 91/Florida's Turnpike from 4 lanes to 6 lanes. The construction phase of this project is currently included in the Plan as a needed project with no funding identified within the Plan horizon year. The public review period will close upon the Adoption Hearing scheduled for December 5, 2012 in conjunction with the MPO's Governing Board meeting.

The MPO Governing Board meeting is open to the public and public participation is encouraged.

The proposed amendment and all TRANSPORTATION 2035 documents can be viewed at <http://lakesumtermpo.com/2035/index.aspx>.
