

2014

TRANSPORTATION DISADVANTAGED

GLOSSARY OF TERMS AND ABBREVIATIONS

Accidents: when used in reference to the AOR, the total number of reportable accidents that occurred whereby the result was either property damage of \$1000.00 or more, or personal injury that required evacuation to a medical facility, or a combination of both.

Actual Expenditure Report (AER): annual report completed by each state member agency and each official planning agency, to inform the Commission in writing, before September 15 of each year, of the specific amount of funds the agency expended for transportation disadvantaged services.

Advance Reservation Service: shared or individual paratransit service that is readily delivered with at least prior day notification, seven days a week, 24 hours a day.

Agency: an official, officer, commission, authority, council, committee, department, division, bureau, board, section, or any other unit or entity of the state or of a city, town, municipality, county, or other local governing body or a private non-profit transportation service providing entity.

Americans with Disabilities Act (ADA): A federal law, P.L. 101-336, signed by the President of the United States on July 26, 1990 providing protection for persons with disabilities.

Agency for Health Care Administration (AHCA): The agency was statutorily created by Chapter 20, Florida Statutes as the chief health policy and planning entity for the state. The agency is primarily responsible for the state's Medicaid program, the licensure of the state's 45,000 health care facilities and the sharing of health care data through the Florida Center for Health information and Policy Analysis.

Annual Operating Report (AOR): an annual report prepared by the community transportation coordinator detailing its designated service area operating statistics for the most recent operating year.

Annual Performance Report (APR): an annual report issued by the Commission for the Transportation Disadvantaged that combines all the data submitted in the Annual Operating Reports and the CTD Annual Report.

Automotive Service Excellence (ASE): a series of tests that certify the skills of automotive technicians in a variety of maintenance areas.

Availability: a measure of the capability of a transportation system to be used by potential riders, such as the hours the system is in operation, the route spacing, the seating availability, and the pick-up and delivery time parameters.

Board of County Commissioners (BCC/BOCC)

Bureau of Economic and Business Research (BEBR): an applied research center in the College of Liberal Arts and Sciences at the University of Florida.

Bus: any motor vehicle designed for carrying more than 10 passengers and used for the transportation of persons for compensation.

Bus Lane: a street or highway lane intended primarily for buses, either all day or during specified periods, but used by other traffic under certain circumstances.

Bus Stop: a waiting, boarding, and disembarking area, usually designated by distinctive signs and by curbs or pavement markings.

Center for Urban Transportation Research (CUTR): a research group located at the University of South Florida's College of Engineering.

Certified Community Transportation Manager (CCTM)

Certified Minority Business Enterprise (CMBE): any small business concern which is organized to engage in commercial transactions, which is domiciled in Florida, and which is at least 51 percent owned by minority persons and whose management and daily operations are controlled by such persons. These businesses should be certified by the Florida Department of Management Services.

Chapter 427, Florida Statutes: the Florida statute establishing the Commission for the Transportation Disadvantaged and prescribing its duties and responsibilities.

Code of Federal Regulations (CFR)

Commendation: any documented compliment of any aspect of the coordinated system, including personnel, vehicle, service, etc.

Commercial Driver's License (CDL): a license required if a driver operates a commercial motor vehicle, including a vehicle that carries 16 or more passengers (including the driver), or a vehicle weighing more than 26,000 pounds.

Commission: the Commission for the Transportation Disadvantaged as authorized in Section 427.013, Florida Statutes.

Florida Commission for the Transportation Disadvantaged (CTD): an independent agency created in 1989 to accomplish the coordination of transportation services provided to the transportation disadvantaged. Replaced the Coordinating Council on the Transportation Disadvantaged.

Community Transportation Coordinator (CTC): a transportation entity competitively procured or recommended by the appropriate official planning agency and local Coordinating Board and approved by the Commission, to ensure that safe, quality coordinated transportation services are provided or arranged in a cost effective manner to serve the transportation disadvantaged in a designated service area.

Competitive Procurement: obtaining a transportation operator or other services through a competitive process based upon Commission approved procurement guidelines.

Complaint: any documented customer concern involving timeliness, vehicle condition, quality of service, personnel behavior, and other operational policies.

Complete (or Full) Brokerage: type of CTC network in which the CTC does not provide any on-street transportation services itself, but contracts with transportation operators or coordination contractors for the delivery of all transportation services.

Coordinated Transportation System: includes the CTC, the transportation operators and coordination contractors under contract with the CTC, the official planning agency, and local Coordinating Board involved in the provision of service delivery to the transportation disadvantaged within the designated service area.

Coordinated Trips: passenger trips provided by or arranged through a CTC.

Coordinating Board: an entity in each designated service area composed of representatives who provide assistance to the community transportation coordinator relative to the coordination of transportation disadvantaged services. (LCB) or (TDCB)

Coordination: the arrangement for the provision of transportation services to the transportation disadvantaged in a manner that is cost effective, safe, efficient, and reduces fragmentation and duplication of services. Coordination is not the same as total consolidation of transportation disadvantaged services in any given service area.

Coordination Contract: a written contract between the community transportation coordinator and an agency who receives transportation disadvantaged funds and performs some, if not all of, its own services, as well as services to others, when such service has been analyzed by the CTC and proven to be a safer, more effective and more efficient service from a total system perspective. The Commission's standard contract reflects the specific terms and conditions that will apply to those agencies who perform their own transportation, as well as joint utilization and cost provisions for transportation services to and from the coordinator.

Deadhead: the miles or hours that a vehicle travels when out of revenue service. From dispatch point to first pick-up, and from last drop-off to home base, or movements from home base to maintenance garage or fuel depot, and return.

Demand Response: a paratransit service that is readily delivered with less than prior day notification, seven days a week, 24 hours a day. This service can be either an individual or shared ride.

Designated Official Planning Agency (DOPA): the official body or agency designated by the Commission to fulfill the functions of transportation disadvantaged planning. The Metropolitan Planning Organization shall serve as the planning agency in areas covered by such organizations.

Designated Service Area: a geographical area subject to approval by the Commission, which defines the community where coordinated transportation services will be provided to the transportation disadvantaged.

Disabled Passenger: anyone with a physical or mental impairment that substantially limits at least one of the major life activities (i.e., caring for one's self, walking, seeing, hearing, speaking, learning).

Disadvantaged Business Enterprise (DBE): any small business concern which is organized to engage in commercial transactions, which is domiciled in Florida, and which is at least 51 percent owned by minority persons and whose management and daily operations are controlled by such persons.

Dispatcher: the person responsible for having every scheduled run leave the yard or garage on time and maintain a schedule, matching the work force with the work load on a minute-by-minute basis. In demand-response transportation, the person who assigns the customers to vehicles and notifies the appropriate drivers.

Driver Hour: the period of one hour that a person works whose main responsibility is to drive vehicles.

Economies of Scale: cost savings resulting from combined resources (e.g. joint purchasing agreements that result in a lower cost per gallon or quantity discount for fuel).

Effectiveness Measure: a performance measure that indicates the level of consumption per unit of output. Passenger trips per vehicle mile is an example of an effectiveness measure.

Efficiency Measure: a performance measure that evaluates the level of resources expended to achieve a given level of output. An example of an efficiency measure is operating cost per vehicle mile.

Emergency: any occurrence, or threat thereof, whether accidental, natural or caused by man, in war or in peace, which results or may result in substantial denial of services to a designated service area for the transportation disadvantaged.

Emergency Fund: transportation disadvantaged trust fund monies set aside to address emergency situations and which can be utilized by direct contract, without competitive bidding, between the Commission and an entity to handle transportation services during a time of emergency.

Employees: the total number of persons employed in an organization.

Fixed Route: (also known as Fixed Route/Fixed Schedule) service in which the vehicle(s) repeatedly follows a consistent time schedule and stopping points over the same route, whereby such schedule, route or service is not at the users request (e.g. conventional city bus, fixed guideway).

Florida Administrative Code (FAC): a set of administrative codes regulating the state of Florida.

Florida Coordinated Transportation System (FCTS): a transportation system responsible for coordination and service provisions for the transportation disadvantaged as outlined in Chapter 427, Florida Statutes.

Florida Department Of Transportation (FDOT): a governmental entity. The CTD is housed under the Florida Department of Transportation for administrative purposes.

Florida Statutes (FS): the laws governing the state of Florida.

Full Time Equivalent (FTE): a measure used to determine the number of employees based on a 40-hour work week. One FTE equals 40 work hours per week.

Fully Allocated Costs (FAC): the total cost, including the value of donations, contributions, grants or subsidies, of providing coordinated transportation, including those services which are purchased through transportation operators or provided through coordination contracts.

General Trips: passenger trips by individuals to destinations of their choice, not associated with any agency program.

Goal: broad conditions that define what the organization hopes to achieve.

Grievance Process: a formal plan that provides a channel for the adjustment of grievances through discussions at progressively higher levels of authority, culminating in mediation, if necessary.

Grievance System: is used as the term by Medicaid to describe the process for addressing Actions, Complaints, Appeals, and Grievances. It is the Medicaid system for reviewing and resolving Medicaid Beneficiary Grievances and Appeals. Components must include a Complaint Procedure, a Grievance Procedure, an Appeal Process, and access to the Medicaid Fair Hearing system.

In Service: the time a vehicle begins the route to provide transportation service to the time the route is completed.

In-Take Clerk/Reservationist: an individual whose primary responsibility is to accept requests for trips, enter dates on requests, determine eligibility and provide customer service.

Lake County Connection (LCC): is the County's paratransit program. It provides door-to-door transportation services to people who are deemed to be transportation disadvantaged as well as those under American with Disabilities Act complementary paratransit program. This service is funded by various federal, state and local funding partners.

LakeXpress: Lake County's fixed-route public transportation service.

Latent Demand: demand that is not active (i.e., the potential demand of persons who are not presently in the market for a good or service).

Limited Access: the inability of a vehicle, facility or equipment to permit entry or exit to all persons. Lack of accessibility of vehicle, facility or other equipment.

Limited English Proficiency (LEP): Individuals who do not speak English as their primary language and who have a limited ability to read, speak, write, or understand English can be limited English proficient.

Load Factor: the ratio of use to capacity of equipment or a facility during a specified time period.

Local Government: an elected and/or appointed public body existing to coordinate, govern, plan, fund, and administer public services within a designated, limited geographic area of the state.

Local Government Comprehensive Plan: a plan that meets the requirements of Sections 163.3177 and 163.3178, Florida Statutes.

Local Coordinating Board (LCB): an entity in each designated service area composed of representatives appointed by the official planning agency. Its purpose is to provide assistance to the community transportation coordinator concerning the coordination of transportation disadvantaged services. ****Also referred to as (TDCB)**

Management Information System (MIS): the mechanism that collects and reports key operating and financial information for managers on a continuing and regular basis.

Memorandum of Agreement (MOA): the state contract included in the transportation disadvantaged service plan for transportation disadvantaged services purchased by federal, state, or local government transportation disadvantaged funds. This agreement is between the Commission and the community transportation coordinator and recognizes the community transportation coordinator as being responsible for the arrangement of the provision of transportation disadvantaged services for a designated service area.

Metropolitan Planning Organization (MPO): the area-wide organization responsible for conducting the continuous, cooperative and comprehensive transportation planning and programming in accordance with the provisions of 23 U.S.C. s. 134, as provided in 23 U.S.C. s. 104(f)(3). Also serves as the official planning agency referred to in Chapter 427, F.S.

Network type: describes how a community transportation coordinator provides service, whether as a complete brokerage, partial brokerage, or sole provider.

Non-coordinated Trip: a trip provided by an agency, entity, or operator who is in whole or in part subsidized by local, state, or federal funds, and who does not have coordination/operator contract with the community transportation coordinator.

Non-sponsored Trip: transportation disadvantaged services that are sponsored in whole by the Transportation Disadvantaged Trust Fund.

Objective: specific, measurable conditions that the organization establishes to achieve its goals.

Off Peak: a period of day or night during which travel activity is generally low and a minimum of transit service is operated.

Operating Cost: the sum of all expenditures that can be associated with the operation and maintenance of the system during the particular period under consideration.

Operating Cost per Driver Hour: operating costs divided by the number of driver hours, a measure of the cost efficiency of delivered service.

Operating Cost per Passenger Trip: operating costs divided by the total number of passenger trips, a measure of the efficiency of transporting riders. One of the key indicators of comparative performance of transit properties since it reflects both the efficiency with which service is delivered and the market demand for the service.

Operating Cost per Vehicle Mile: operating costs divided by the number of vehicle miles, a measure of the cost efficiency of delivered service.

Operating Environment: describes whether the community transportation coordinator provides service in an urban or rural service area.

Operating Expenses: sum of all expenses associated with the operation and maintenance of a transportation system.

Operating Revenues: all revenues and subsidies utilized by the operator in the provision of transportation services.

Operating Statistics: data on various characteristics of operations, including passenger trips, vehicle miles, operating costs, revenues, vehicles, employees, accidents, and road calls.

Operator Contract: a written contract between the community transportation coordinator and a transportation operator to perform transportation services.

Organization Type: describes the structure of a community transportation coordinator, whether it is a private-for-profit, private non-profit, government, quasi-government, or transit agency.

Paratransit: elements of public transit that provide service between specific origins and destinations selected by the individual user with such service being provided at a time that is agreed upon between the user and the provider of the service. Paratransit services are provided by sedans, vans, buses, and other vehicles.

Partial Brokerage: type of CTC network in which the CTC provides some of the on-street transportation services and contracts with one or more other transportation operators, including coordination contractors, to provide the other portion of the on-street transportation disadvantaged services, including coordination contractors.

Passenger Miles: a measure of service utilization which represents the cumulative sum of the distances ridden by each passenger. This is a duplicated mileage count. For example: If 10 people ride together for 10 miles, there would be 100 passenger miles.

Passenger Trip: a unit of service provided each time a passenger enters the vehicle, is transported, then exits the vehicle. Each different destination would constitute a passenger trip. This unit of service is also known as a one-way passenger trip.

Passenger Trips per Driver Hour: a performance measure used to evaluate service effectiveness by calculating the total number of passenger trips divided by the number of driver hours.

Passenger Trips per Vehicle Mile: a performance measure used to evaluate service effectiveness by calculating the total number of passenger trips divided by the number of vehicle miles.

Performance Measure: statistical representation of how well an activity, task, or function is being performed. Usually computed from operating statistics by relating a measure of service output or utilization to a measure of service input or cost.

Potential TD Population: (formerly referred to as TD Category I) includes persons with disabilities, senior citizens, low income persons, and high risk or at risk children. These persons are eligible to receive certain governmental and social service agency subsidies for program-related trips.

Program Trip: a passenger trip supplied or sponsored by a human service agency for the purpose of transporting clients to and from a program of that agency (e.g., sheltered workshops, congregate dining, and job training).

Public Transit: means the transporting of people by conveyances or systems of conveyances traveling on land or water, local or regional in nature, and available for use by the public. Public transit systems may be governmental or privately owned. Public transit specifically includes those forms of transportation commonly known as paratransit.

Purchased Transportation: transportation services provided for an entity by a public or private transportation provider based on a written contract.

Quality Assurance and Program Evaluation (QAPE)

Request for Bids (RFB): a competitive procurement process.

Request for Proposals (RFP): a competitive procurement process.

Request for Qualifications (RFQ): a competitive procurement process.

Reserve Fund: transportation disadvantaged trust fund monies set aside each budget year to insure adequate cash is available for incoming reimbursement requests when estimated revenues do not materialize.

Revenue Hours: total vehicle hours used in providing passenger transportation, excluding deadhead time.

Revenue Miles: the total number of paratransit service miles driven while TD passengers are actually riding on the vehicles. This figure should be calculated from first passenger pick-up until the last passenger drop-off, excluding any breaks in actual passenger transport. For example: if 10 passengers rode 10 miles together, there would be 10 revenue miles.

Ridesharing: the sharing of a vehicle by clients of two or more agencies, thus allowing for greater cost efficiency and improved vehicle utilization.

Roadcall: any in-service interruptions caused by failure of some functionally necessary element of the vehicle, whether the rider is transferred or not. Roadcalls exclude accidents.

Rule 41-2, F.A.C.: the rule adopted by the Commission for the Transportation Disadvantaged to implement provisions established in Chapter 427, F.S.

Scheduler: a person who prepares an operating schedule for vehicles on the basis of passenger demand, level of service, and other operating elements such as travel times or equipment availability.

Shuttle: a transit service that operates on a short route, or in a small geographical area, often as an extension to the service of a longer route.

Sole Source: (also referred to as Sole Provider) network type in which the CTC provides all of the transportation disadvantaged services.

Sponsored Trip: a passenger trip that is subsidized in part or in whole by a local, state, or federal government funding source (not including monies provided by the TD Trust Fund).

Standard: something established by authority, custom, or general consent as a model or example.

Stretcher Service: a form of non-emergency paratransit service whereby the rider is transported on a stretcher, litter, gurney, or other device that does not meet the dimensions of a wheelchair as defined in the Americans with Disabilities Act.

Subcontracted Transportation Provider (STP): any person or entity with which the recipient has contracted or delegated, by use of a subcontract, some of its functions, services, or responsibilities for providing transportation services.

Subscription Service: a regular and recurring service in which schedules are prearranged, to meet the travel needs of riders who sign up for the service in advance. The service is characterized by the fact that the same passengers are picked up at the same location and time and are transported to the same location, and then returned to the point of origin in the same manner.

Sumter County Transit (SCT): providing low-cost, safe, clean, and efficient transportation to the residents of Sumter County who qualify as "transportation disadvantaged" as defined by state statutes.

System Safety Program Plan (SSPP): a documented approach and guide to accomplishing a system safety program set forth in Florida Rule 14-90.

Total Fleet: this includes all revenue vehicles held at the end of the fiscal year, including those in storage, emergency contingency, awaiting sale, etc.

Total Quality Management (TQM): a management philosophy utilizing measurable goals and objectives to achieve quality management practices.

Transit Development Plan (TDP): the Transit Development Plan (TDP) is a strategic guide for public transportation. Florida Statutes mandate the preparation of a TDP for all transit systems that receive Block Grants from the State of Florida.

Transportation Alternative: those specific transportation services that are approved by rule to be acceptable transportation alternatives, and defined in s. 427.018, F. S.

Transportation Disadvantaged (TD): those persons, including children as defined in 411.202 F.S., who because of physical or mental disability, income status, or inability to drive due to age or disability are unable to transport themselves or to purchase transportation and have no other form of transportation available. These persons are, therefore, dependent upon others to obtain access to health care, employment, education, shopping, or medically necessary or life-sustaining activities.

Transportation Disadvantaged Coordinating Board (TDCB): an entity in each designated service area composed of representatives appointed by the official planning agency. Its purpose is to provide assistance to the community transportation coordinator concerning the coordination of transportation disadvantaged services. ** Also referred to as (LCB)

Transportation Disadvantaged Funds: any local government, state or available federal funds that are for the transportation of the transportation disadvantaged. Such funds may include, but are not limited to funds for planning, Medicaid transportation, transportation provided pursuant to the ADA, administration of transportation disadvantaged services, operation, procurement and maintenance of vehicles or equipment, and capital investments. Transportation disadvantaged funds do not include funds expended by school districts for the transporta-

tion of children to public schools or to receive service as a part of their educational program.

Transportation Disadvantaged Population: (formerly referred to as TD Category II) persons, including children, who, because of disability, income status, or inability to drive due to age or disability are unable to transport themselves.

Transportation Disadvantaged Service Plan (TDSP): an annually updated tactical plan jointly developed by the Planning Agency and the CTC which contains the provisions of service delivery in the coordinated transportation system. The plan shall be reviewed and recommended by the local Coordinating Board and submitted to the CTD for final action.

Transportation Disadvantaged Trust Fund: a fund administered by the Commission for the Transportation Disadvantaged in which all fees collected for the transportation disadvantaged program shall be deposited. The funds deposited will be appropriated by the legislature to the Commission to carry out the Commission's responsibilities. Funds that are deposited may be used to subsidize a portion of a transportation disadvantaged person's transportation costs which are not sponsored by an agency.

Transportation Operator: a public, private for profit, or private non-profit entity engaged by the community transportation coordinator to provide service to the transportation disadvantaged pursuant to an approved coordinated transportation system transportation disadvantaged service plan.

Transportation Operator Contract: the Commission's standard coordination/operator contract between the community transportation coordinator and the transportation operator that outlines the terms and conditions for any services to be performed.

Trend Analysis: a common technique used to analyze the performance of an organization over a period of time.

Trip Priorities: various methods for restricting or rationing trips.

Trip Sheet: a record kept of specific information required by ordinance, rule or operating procedure for a period of time worked by the driver of a public passenger vehicle in demand-response service. Also known as a driver log.

Unduplicated Passenger Head Count (UPHC): the actual number of people that were provided paratransit transportation services, not including personal care attendants, non-paying escorts, or persons provided fixed schedule/fixed route service.

Unmet Trip Requests/Unmet Need: the number of trips desired but not provided because of insufficient service supply, most commonly due to lack of adequate funding.

Urbanized Area: a city (or twin cities) that has a population of 50,000 or more (central city) and surrounding incorporated and unincorporated areas that meet certain criteria of population size of density.

U.S. Department of Health and Human Services (USDHHS): a federal agency regulating health and human services.

U.S. Department of Transportation (USDOT): a federal agency regulating the transportation field.

Van Pool: a prearranged ride-sharing service in which a number of people travel together on a regular basis in a van. Van pools are commonly a company-sponsored van that has a regular volunteer driver.

Vehicle Inventory: an inventory of vehicles used by the CTC, transportation operators, and coordination contractors for the provision of transportation disadvantaged services.

Vehicle Miles: the total distance traveled by revenue vehicles, including both revenue miles and deadhead miles.

Vehicle Miles per Vehicle: a performance measure used to evaluate resource utilization and rate of vehicle depreciation, calculated by dividing the number of vehicle miles by the total number of vehicles.

Vehicles: number of vehicles owned by the transit agency that are available for use in providing services.

Volunteers: individuals who do selected tasks for the community transportation coordinator or its contracted operator, for little or no compensation.

Will-Calls: these are trips that are requested on a demand response basis, usually for a return trip. The transportation provider generally knows to expect a request for a will-call trip, but can not schedule the trip in advance because the provider does not know the exact time a passenger will call to request his/her trip. In addition, if the customer is not ready at the requested return the customer will be placed on will call and the Operator will make every effort to return for the customer within ninety (90) minutes. If the client is a dialysis patient or taking chemotherapy treatment, efforts will be made to pick them up within thirty (30) minutes.
